

Is your team stretched thin and overwhelmed?

Is the stress, work, and worry related to family caregiving making it worse?

Your employees' hard work goes beyond your walls.

Research suggests that **20 percent (or more)** of your employees are caring for a loved one who is aging or has special needs back at home. Who is caring for *them*?

Your organization can't afford to ignore the effects of caregiver burnout:

Increased Turnover Rates

33%

of caregivers leave their employer

Decreased Levels of Diversity

61%

of caregivers are women

Drastic Mental Health Impacts

57%

of caregivers are facing clinical depression & anxiety

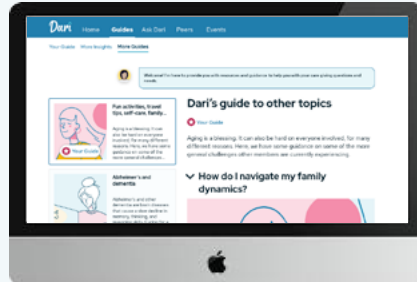

The challenges are endless, but Homethrive is here to help!

Take action today by visiting <https://www.homethrive.com/employers-and-adult-caregiving>

Finally! A new benefit to address soaring turnover and improve employee well-being
